PEREGRINE US BOND FUND

Introduction

The Fund is a Cell of Peregrine Global Funds PCC Limited, a protected cell company registered with limited liability in Guernsey on 13 March 2012 and authorised by the GFSC as an authorised open-ended collective investment scheme of Class B.

At the date of this document, the Company has eight other Cells in existence, namely:

- Peregrine Global Greats Fund;
- Peregrine Global Real Estate Fund;
- Peregrine US Managed Volatility Equity Fund;
- Peregrine Enhanced USD Cash Fund;
- Peregrine Emerging Market Equity Fund;
- Peregrine Global Equity Feeder Fund;
- Peregrine Global Macro Fund;
- Peregrine Global Dividend Fund.

Pursuant to these Supplemental Particulars, Participating Shares are being offered in the following classes:

- Dollar Shares, denominated in US Dollar;
- Rand Shares, denominated in South African Rand.

Although all classes will benefit from the same underlying investment objectives and policy, each class will be priced and valued in its specific currency. The Directors may create additional classes from time to time in their absolute discretion.

The Base Currency of the Fund is US Dollars.

The Net Asset Value of the Fund and the underlying assets of the Fund will be valued in the Base Currency. Exposure to investments which are not denominated in the Base Currency may not be hedged against the Base Currency; however, the Manager may take the possibility of such movements into account in its investment policy.

Rand Shares may be affected favourably or unfavourably by changes in the exchange rate between the Base Currency and the South African Rand. However, the Manager may, by appropriate currency hedging, seek to protect the value of the Rand Shares. Furthermore, the Manager may seek to enhance returns of the Rand Shares by implementing, varying or removing such hedging from time to time based on the Manager's view of the relevant currency position ("**Dynamic Hedging**"). All assets, income, earnings, liabilities, expenses and costs attributable to a particular class (for example, hedging costs) will be booked against the class to which such items relate.

The Directors are permitted to amend the following investment objectives, policies and restrictions

(including any borrowing and hedging powers) applicable to the Fund provided that no material change shall be effected without Shareholders being given a prior opportunity to deal in their Participating Shares. Shareholders will not be required to approve any amendments to the following investment objectives, policies and restrictions (including any borrowing and hedging powers) applicable to the Fund although the Directors reserve the right to seek approval from Shareholders by Extraordinary Resolution in lieu of the provision of a prior opportunity to deal in their Participating Shares if they consider it appropriate to do so.

Investment Objective

The Fund seeks to provide total investment return at moderate levels of volatility. The investment objective of the Dollar share class is to achieve outperformance of the Bank of America (BofA) Merrill Lynch US Treasury Index whilst the investment objective of the Rand share class is to achieve outperformance of the Bank of America (BofA) Merrill Lynch US Treasury Index, 50% hedged to South African Rand.

The Fund cannot guarantee that it will achieve these objectives given financial market fluctuations and the other risks to which investments are exposed.

Investment Policy

- To achieve the investment objectives, the Fund will follow a fund of funds approach to create a diversified portfolio comprising both government and non-government bonds predominantly in the United States.
- The Fund may also invest directly in fixed income securities, money market instruments, exchange rate swaps, cash and cash equivalents from time to time.
- The Manager may use currency hedging techniques, when necessary, to actively manage the Fund's currency exposure in underlying investments in order to meet its objectives. The Manager may also seek to enhance returns on Participating Shares denominated in currencies other than the Base Currency through the use of Dynamic Hedging. Foreign exchange credit lines will be needed to implement currency hedging techniques and whilst the Manager will take steps to ensure that credit lines are in place it can provide no assurances. It is possible that the Participating Shares denominated in currencies other than the Base Currency may not always be fully hedged against currency fluctuations.
- The Fund will only make use of financial derivative instruments for the purpose of efficient portfolio management and currency hedging. All such transactions will be fully covered and will not be used for gearing purposes.

Authorised Schemes

Subject to the investment restrictions, the Fund may invest in Authorised Schemes. "Authorised Schemes" comprise those collective investment schemes, listed or unlisted, which meet all the criteria below.

- The scheme is operated on similar criteria to those applicable to South African domiciled collective investment schemes in securities and such a scheme may not be classified as a hedge fund (Schemes that are approved by the Financial Sector Conduct Authority to solicit investments in South Africa, provided that they may not be classified as hedge funds, are deemed to meet this criterion);

- The scheme is not allowed to utilise borrowing for the purpose of gearing;
- The scheme may only use derivatives for efficient portfolio management and no uncovered positions and/or net short positions are allowed;
- The scheme offers a minimum of weekly investor dealing;
- The scheme does not invest in instruments that compel the acceptance of physical delivery of a commodity;
- The scheme has a risk profile that is not significantly higher than the risk profile of the other schemes that may be included in the Fund.
- The scheme is not a synthetic exchange traded fund (“ETF”) nor is it a leveraged ETF.

The Investment Advisor must carry out a formal investment due diligence on the collective investment scheme and must certify to the Manager that it complies with the criteria above.

Investment Process

- The investment process involves economic scenario analysis, asset class modeling, security analysis and selection, portfolio construction, manager selection and risk management.
- Both asset allocation and security selection is determined on the basis of internal inputs from the Investment Advisor’s investment teams, together with relevant external research. Portfolio construction comprises strategic and tactical components and is conducted in the context of an overall risk framework.
- Portfolio Manager selection is conducted using the Investment Advisor’s manager selection process. This involves rigorous quantitative and qualitative fund and manager research by a team of experienced analysts. The main objective of this process is to gain a clear understanding of the type and quality of the proposition under scrutiny, its relevance to the overall asset allocation of the Fund and its likely impact on the Fund’s risk and return profiles.
- The Portfolio Managers chosen for analysis and investment may include funds managed or advised by the Manager or Investment Advisor or other companies in the Peregrine Group as well as those managed by third party managers.
- The Investment Advisor will monitor all Portfolio Managers managing the assets of the Fund.

Investment Restrictions

The assets of the Fund shall not be invested in contravention of limits or restrictions imposed under its Articles and disclosed in its Particulars and these Supplemental Particulars; and if the limits or restrictions disclosed in the Particulars and these Supplemental Particulars are more restrictive than those imposed under the Articles, no departure may be made from the limits or restrictions disclosed in the Particulars and these Supplemental Particulars unless written notice is given to Shareholders and the Particulars and/or these Supplemental Particulars are duly amended in accordance with the Rules.

The Fund may not invest in an instrument that compels the acceptance of physical delivery of a commodity and the Fund may not accept physical delivery of a commodity.

Collective Investment Schemes

- Assets of the Fund must comprise at least two collective investment schemes.
- Investment in any one collective investment scheme may not exceed 75% of the Net Asset Value of the Fund.
- The Fund may not invest in collective investment schemes that are classified as fund of funds or a feeder fund unless measures are put in place to prevent double charging of investment management fees on the same assets.

Investments in Transferable Securities (not including Collective Investment Schemes)

- 90% of interest-bearing instruments included in the Fund, as measured by their market value, must have a credit rating of “investment grade” by Standard & Poor’s, Moody’s and/or Fitch.
- A maximum of 10% of the Net Asset Value of the Fund may be invested in transferable securities issued by the same issuer. This does not apply to obligations of, and issues guaranteed by, the US Treasury, US Agencies, and US Government Sponsored Enterprises – all of which are exempt from this limitation.

The Manager will ensure that the Fund, at the time of any investment purchase, or upon entering into any contract, is not in breach of the above investment restrictions. Accordingly, the Manager shall be under no obligation to dispose of any investments which, following the initial investment, cause the Fund to exceed the above restrictions.

Borrowing

In accordance with the general provisions contained in the Articles and these Particulars, the Fund may borrow up to 10% of its net assets on a temporary basis. Such borrowings are permitted only to meet the Fund’s obligations in relation to (i) the administration of the Fund relating to purchase or sale transactions; and/or (ii) the redemption or cancellation of Shares in the Fund. Borrowings in relation to (i) above are only permitted for a period of up to 8 calendar days, and 61 calendar days in respect of (ii) in order to comply with the South African Financial Sector Conduct Authority and to allow for the Fund to be distributed to South African retail investors. However, at all times borrowings on behalf of the Fund will be in accordance with the requirements of the Guernsey Financial Services Commission.

Currency Hedging

The Manager may, by appropriate currency hedging, seek to protect the Fund against a decline in the value of the US Dollar against the currencies in which the underlying investments may be denominated. Rand Shares may be affected favourably or unfavourably by changes in the exchange rate between the Base Currency and the South African Rand. The Manager may, by appropriate currency hedging, seek to either protect the value of the Rand Shares or enhance returns of this class by Dynamic Hedging. All costs of borrowing and/or hedging which is specific to a particular class will be allocated to the Net Asset Value of the relevant class.

Use of Derivatives

The Manager may, but shall not be obliged to, make use of derivative instruments (including forward foreign exchange contracts and options) for the purpose of hedging exchange rate risks (including Dynamic Hedging) as detailed in these Supplemental Particulars.

Distribution Policy

The Directors of the Fund are entitled, in their sole discretion, to declare and pay dividends on Participating Shares in such amounts which are justified by the available income (consisting of all dividends, interest and other income of the Cell) received net of expenses, over the previous six months ending 30 June and 31 December respectively (each, a "Record Date"). Such dividends, if declared, will usually be paid in August and February but in any event by no later than 30 September and 31 March, respectively (each, a "Payment Date").

Registered Shareholders as at the relevant Record Date are entitled to participate in any dividends pro rata (by reference to their holdings as at the Record Date). Unless a Shareholder otherwise requests in writing, dividends from the Fund will automatically be applied towards the acquisition of additional Participating Shares on the Dealing Day following the relevant Payment Date at the Fund's relevant Net Asset Value per Share.

The Manager will issue a statement showing the rate and amount of any dividend payable to all Shareholders albeit that no such statement will be provided where the Directors have decided not to declare or pay a dividend.

Registered Shareholders who redeem their total shareholding after a dividend is declared, but prior to the payment of such dividend, will receive said dividend in the form of cash and not in the form of Participating Shares.

Report and Accounts

The audited financial statements of the Company, which include the Fund, will be prepared and distributed in accordance with the Particulars of the Company.

Safe-Keeping of Assets

All assets of the Fund shall be held in safe custody by the Custodian.

Register

Any Shareholder may inspect the Register of Shareholders at the office of the Administrator, the address of which is stated in the Directory in the Particulars, during usual office hours.

MANAGEMENT AND ORGANISATION

The Investment Advisor

The Investment Advisor is Citadel Investment Services (Proprietary) Limited which is incorporated as a company with limited liability in South Africa. Its registered office is at Kaaimans Building, Lynnwood Bridge Office Park, 14 Hilden Road, Lynnwood Manor, Pretoria, 0081. The Investment Advisor is a wholly owned subsidiary of the Citadel Group and part of the same corporate group as the Manager.

By an agreement dated 1 January 2013 (the “**Investment Advisory Agreement**”) the Investment Advisor undertakes to keep the Fund’s investments under regular review and provide the Manager with advice on the investment and general deployment of the Fund’s assets. The Investment Advisor has no discretionary authority and, except where expressly instructed, the Investment Advisor shall not have any power to enter into any transaction on behalf of or in any other way to bind the Manager and/or the Company.

The Investment Advisor shall not be responsible for any loss or damage which the Manager or the Company may sustain or suffer as a result of or in the course of the discharge of its duties other than loss or damage by reason of the fraud, negligence or willful default of the Investment Advisor. The Manager out of the property of the Company shall indemnify and hold harmless the Investment Advisor against all claims and demands which may be made against the Investment Advisor in respect of any loss or damage sustained or suffered by any third party, otherwise than by reason of the fraud, negligence or wilful default of the Investment Advisor. Such indemnity shall be limited to the assets of the Cell to which the action, claim, proceedings or demand in question relates.

The Investment Advisory Agreement provides that the appointment of the Investment Advisor will continue in force until terminated by the Investment Advisor or the Manager giving to the other parties not less than three months’ written notice, although in certain circumstances (including where a resolution for the winding up of a party or parties to the agreement is passed or where a party or parties to the agreement commits material breach of its obligations under the agreement) the agreement may be terminated forthwith by notice in writing.

The Investment Advisor has the power to delegate any of his duties and functions to a third party with the approval of the Company. Details of such appointment will appear in the relevant Supplemental Particulars.

The Investment Advisor may deal in Participating Shares without accounting to the Shareholders or the Company for any profits.

The remuneration of the Investment Advisor is met by the Manager out of its own remuneration, however the Company shall be liable to meet properly incurred expenses of the Investment Advisor in the furtherance of its duties.

RISK FACTORS

The risk factors which investors should consider before making an investment in the Fund are detailed in the Particulars relating to the Company. The following, additional risk factors apply in respect of an investment in the Fund.

Fixed Income Investments Risks; Default Risk

Fixed income investments are subject to credit, liquidity and interest rate risk. The risk that the performance of the Fund could be adversely affected by losses on the fixed income investments may be increased to the extent the portfolio of fixed income investments is concentrated in any one issuer, industry, region or country.

The market value of the Fixed Income Investments will generally fluctuate with, among other things, the financial condition of the obligors on the underlying debt obligations or, with respect to synthetic securities, of the obligors on or issuers of the reference obligations, general economic conditions, the condition of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates.

High Yield Securities

The Fund may invest (either directly or indirectly via the Authorised Schemes) in high-yield securities. Such securities are generally not exchange traded and, as a result, these instruments trade in the over-the-counter marketplace, which is less transparent than the exchange-traded marketplace. In addition, the Fund may invest in bonds of issuers that do not have publicly traded securities, making it more difficult to hedge the risks associated with such investments. High-yield securities face ongoing uncertainties and exposure to adverse business, financial or economic conditions which could lead to the issuer's inability to meet timely interest and principal payments. The market values of certain of these lower-rated and unrated debt securities tend to reflect individual corporate developments to a greater extent than do higher-rated securities which react primarily to fluctuations in the general level of interest rates, and tend to be more sensitive to economic conditions than are higher-rated securities. Companies that issue such securities are often highly leveraged and may not have available to them more traditional methods of financing. It is possible that a major economic recession could disrupt severely the market for such securities and may have an adverse impact on the value of such securities. In addition, it is possible that any such economic downturn could adversely affect the ability of the issuers of such securities to repay principal and pay interest thereon and increase the incidence of default of such securities.

Mezzanine Debt Securities

Mezzanine debt securities are generally unrated or below investment grade rated investments that have greater credit and liquidity risk than more highly rated debt obligations. Mezzanine debt securities are typically issued in traditional private placements or in connection with acquisitions and other business combinations and have no trading market. Moreover, mezzanine debt securities are generally unsecured and subordinate to other obligations of the obligor and are subject to many of the same risks as those associated with high-yield debt securities. Adverse changes in the financial condition of the obligor of mezzanine debt securities or in general economic conditions (including, for example, a substantial period of rising interest rates or declining earnings) or both may impair the ability of the obligor to make payment of principal and interest. Issuers of mezzanine debt securities may be highly leveraged, and their relatively high debt-to-equity ratios create increased risks that their operations might not generate sufficient cash flow to service their debt obligations.

Investment Grade Debt Securities

Investment grade debt securities are investment grade rated obligations that have credit ratings that are intended to reflect (but will not necessarily reflect) relatively less credit and liquidity risk than high-yield debt securities or mezzanine debt securities. Risks of investment grade debt securities may include (among others): (i) market place volatility resulting from changes in prevailing interest rates, (ii) the absence, in many instances, of collateral security, (iii) the operation of mandatory sinking fund or call/redemption provisions during periods of declining interest rates that could cause the Authorised Schemes to reinvest premature redemption proceeds in lower-yielding debt obligations and (iv) the declining creditworthiness and the greater potential for insolvency of the issuer of such investment debt securities during periods of rising credit spreads and/or interest rates and/or economic downturn.

Limited Liquidity of Investments

It is possible that a portion of the investments made by the Fund and/or Authorised Schemes may lack a liquid trading market, which may result in the inability of the Fund and/or Authorised Schemes to sell any such security or other investment or to close out a transaction.

Assets and liabilities for which no market prices are available will generally be carried on the books of the Fund and/or Authorised Scheme at fair value (which may be cost) as reasonably determined by the Manager or by the manager of the relevant Authorised Scheme. There is no guarantee that fair value will represent the value that will be realised on the eventual disposition of the investment or that would, in fact, be realised upon an immediate disposition of the investment.

SUBSCRIPTION, REDEMPTION AND CONVERSION OF PARTICIPATING SHARES

Subscriptions

Participating Shares are available for subscription by eligible investors at the Subscription Price per Participating Share. Investors may subscribe for Participating Shares on any Subscription Day in accordance with the procedure set out below under "Application Procedure". Subscriptions in the Fund are subject to acceptance by the Manager.

The Manager may close the Fund to new subscriptions if it determines, in its sole discretion, that the acceptance of further subscriptions is not in the interests of existing Shareholders.

Minimum Subscription

The minimum initial subscription for Participating Shares that will be accepted is US\$10,000 (or currency equivalent). The Manager may vary this amount but not so as to require Shareholders to increase their holdings in the Fund. Additional subscriptions may be made in any amounts.

The Manager may waive such minimum subscription thresholds either generally, or on a case by case basis, in its sole discretion.

Application Procedure

The Administrator must receive an application form (prospective shareholders) or clear instruction (existing shareholders) by post, fax or electronic means by no later than 4.00 p.m. Guernsey time on the Business Day prior to the relevant Subscription Day in the case of the Dollar share class and by 4.00 p.m. Guernsey time two (2) Business Days prior to the relevant Subscription Day in the case of the Rand share class. All applications must include the following information:-

- the amount to be invested, such amount being for not less than the minimum subscription as specified in these Supplemental Particulars under "Minimum Subscription";
- the exact name(s) in which the Participating Shares are to be registered and the name and address to which any correspondence should be sent;
- confirmation that the application has been made in compliance with the Articles and the terms and conditions of these Supplemental Particulars and the Particulars;
- redemption payment instructions; and,
- in the case of a corporate investor, a certified copy of its current authorised signatory list.

All requests received before 4.00 p.m. Guernsey time on a Business Day will be processed on that Business Day. Those received and accepted after that time will be processed the next Business Day.

Issue of Participating Shares and Settlement

Participating Shares are issued upon acceptance of an application for Participating Shares on the condition that cleared payment is received by the Administrator by the third Business Day after the Subscription Day except in the case of a conversion of Participating Shares of one Cell to Participating Shares of another Cell when funds from the redemption of the old Participating Shares will be applied in the purchase of the new Participating Shares.

Notice requiring payment of the Subscription Price shall be deemed to have been made by the Directors with effect from the Subscription Day pursuant to the terms of the application for Participating Shares as provided in this document. In the event that payment is not received by the third Business Day after the Subscription Day (save in respect of conversions as provided above) unless the Manager, in its absolute discretion, agrees otherwise, the Participating Shares shall be forfeited and cancelled without prior notice to the investor at its own cost.

Until cleared payment for the Participating Shares is received from the investor, the Participating Shares are subject to a lien in favour of the Fund. During this period, voting rights and entitlements to dividend payments are suspended, and the investor cannot switch or transfer the Participating Shares. Subscription monies will only be moved to the Fund's account on the third Business Day after the Subscription Day regardless of whether it is received earlier than that date.

Any forfeiture of Participating Shares in accordance with the aforementioned provisions shall include all dividends and distributions declared in respect of such Participating Shares. A forfeited Participating Share shall be deemed to be the property of the Fund and may be sold, re-allotted or otherwise disposed of on such terms as the Directors shall think fit and at any time before a sale or disposition the forfeiture may be cancelled. A person whose Participating Shares have been forfeited shall cease to be a Shareholder in respect of the forfeited Participating Shares, but shall notwithstanding the forfeiture remain liable to pay the Fund all monies which at the date of forfeiture were presently payable by him to the Fund in respect of such Participating Shares together with all administrative costs and/or other investment losses incurred by the Fund associated with the forfeiture of the Participating Shares and the Directors may enforce payment by written demand without any allowance for the value of the Participating Shares at the time of forfeiture.

In all cases any money returnable to the investor will be held by the Manager without payment of interest pending receipt of the remittance.

Details of how payments may be made can be found in the relevant application form or, in respect of clear instructions from existing shareholders, shall be sent by email to the investor on the first Business Day following the relevant Dealing Day. The Manager may reject any application or accept an application in part only or treat as valid an application which does not fully comply with the terms and conditions of application. If any application is not accepted, the amount paid on application (if any) will be returned, without interest, by post to the first address given in the application at the applicant's risk and cost. The Manager in its absolute discretion may accept applications for Participating Shares and/or subscription monies on shorter notice periods either generally or in a particular case.

To ensure compliance with statutory and other requirements relating to money laundering the Manager will require verification of identity from any person or corporate entity lodging a completed application form. This information will be kept on file and will only need to be updated should there be any relevant changes made. Any information provided to the Company or the Manager in this

context is collected for anti-money laundering compliance purposes only. If within a reasonable period of time following a request for verification of identity, the Manager has not received evidence satisfactory to it, it may, in its absolute discretion, refuse to allot the Participating Shares applied for in which event application monies will be returned without interest to the account from which such monies were originally debited at the cost and risk of the applicant. Funds remitted by bank draft will be returned by post at the applicant's risk by bank draft to the paying bank without interest, less any charges for the account of the drawer, quoting the applicant's name. References to the "Manager" in this paragraph shall include its nominees and duly appointed agents including, but not limited to, the Administrator.

Each potential investor of Participating Shares will be required in the application form to make appropriate representations and warranties.

Potential investors are referred to the Particulars for details of calculation of Subscription and Redemption Prices and the procedures applicable to the subscription, redemption and conversion of Participating Shares.

The attention of investors is drawn to the Privacy Notice at Appendix 1 to the Particulars which sets out how and why the Company and its service providers process personal data.

Redemption Notice and Procedure

A Shareholder who wishes to redeem all or any part of his holding must give the Administrator notice of his intention by 4.00 p.m. Guernsey time on the Business Day prior to the relevant Dealing Day in the case of the Dollar share class and two (2) Business Days prior to the relevant Dealing Day in the case of the Rand share class for Participating Shares to be redeemed on that Dealing Day. Such a request should clearly identify the holding to be redeemed by including the details as inscribed on the register of Shareholders or the purchase contract reference number or the investor's account number. The Manager in its absolute discretion may accept shorter notice periods for redemption having regard to, among other things, the liquidity of the Fund and the potential disadvantage to other Shareholders. The Redemption Procedure for the Fund is set out in the Particulars.

Conversion Procedure

The Conversion Procedure for the Fund is set out in the Particulars.

Compulsory Redemption

The Directors have resolved that they may at their discretion compulsorily redeem at any time the Participating Shares in the Fund of any investor which, as a result of a redemption of any part of the investor's holding, have a value of less than US\$5,000 (or currency equivalent).

If the Net Asset Value of the Fund or any share class is less than US\$25 million (or currency equivalent) on each Valuation Point falling within a period of 12 consecutive weeks the Directors may on not less than 21 clear days' notice (expiring on a Dealing Day) either compulsorily redeem all the Participating Shares of the Fund or the share class in issue or convert them into Participating Shares of another Cell or another class of the same Cell.

Participating Shares may be compulsorily redeemed if the holder thereof is deemed by the Directors to be holding such shares in breach of any applicable law or requirement of any country or governmental authority.

Publication of Prices

The Subscription Price (exclusive of any initial charge) and the Redemption Price in respect of the immediately preceding Dealing Day will be available on request from the Manager and the Administrator and will also be published on the Manager's website at www.peregrine.gg.
