CAM GLOBAL MULTI-STRATEGY EQUITY FUND R (ZAR HEDGED)

INVESTMENT OBJECTIVE AND POLICY

The CAM Global Multi-Strategy Equity Fund ('the fund') aims to provide investors with superior long term capital growth by investing predominantly in global equity markets. The aim is to allocate capital dynamically to a selection of different global equity strategies and explicitly manage the diversification to ensure no reliance on any single equity style or strategy.

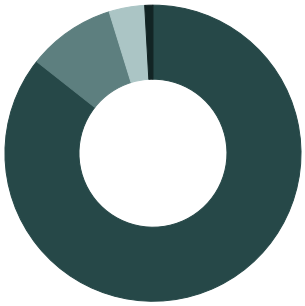

To achieve the investment objective the fund follows a fund-of-funds approach and invests on a global basis with a number of portfolio managers, including collective investment schemes managed by the Citadel Group. By investing in a variety of equity strategies, the fund expects to reduce the risks inherent in an individual market, asset class, country or a single asset management group. Derivative instruments may also be used for the purpose of efficient portfolio management. The Manager seeks to enhance returns of the fund by implementing and varying USD/ZAR currency hedging based on the Manager's view of the relevant currency position ('dynamic hedging').

CAM

FUND PERFORMANCE (%)

	Fund	Benchmark
YTD	6.9%	12.1%
1 Year	4.8%	11.0%
3 Years (ann.)	16.6%	21.1%
Since Launch (ann.)	11.0%	12.1%

The table above reflects the actual percentage performance of the fund and notional performance of the benchmark, based on a lump sum contribution on the launch date of the fund. Performance of both the fund and the benchmark is annualised over periods longer than one year. Performance is shown net of all fund charges and expenses and includes the reinvestment of distributions.

HIGHEST/LOWEST ANNUAL RETURN

Highest Annual Return Date	31/03/2024
Fund Highest Annual Return	30.9%
Benchmark in High Period	29.0%
Lowest Annual Return Date	31/12/2022
Fund Lowest Annual Return	-11.0%
Benchmark in Low Period	-14.6%

Calculated as a 12 month rolling performance figure using month-end values since the fund's launch. The benchmark performances shown above are an illustration of its own performance for the periods shown for the fund. This is not a reflection of the benchmark's own highest or lowest annual return.

FUND COMMENTARY

Global equity markets retreated in October, as a sharp rotation out of technology and communication services weighed on major indices amid escalating Middle East conflict and renewed inflation concerns driven by surging energy prices. The S&P 500 Index fell 0.9%, and the Nasdaq Composite declined 5.3%, reflecting concentrated losses in large-cap technology names. The MSCI World Index was down 0.8% in US dollar terms. Emerging markets bore the brunt of the risk-off move, with the MSCI Emerging Markets Index falling 8.0%, pressured by the technology sell-off and a stronger US dollar. In contrast, the Bloomberg US Treasury Index gained 2.4%, as investors sought safe-haven assets amid elevated geopolitical risk and rising energy-driven inflation expectations.

Against this backdrop, the ZAR hedged share class of the CAM Global Multi-Strategy Equity Fund ('the fund') was down 1.5% for the month. In terms of the fund's underlying holdings, the global dividend yield exposure was supportive while the global growth and quality equity strategies fell in tandem with developed equity markets, and the emerging market equity exposure struggled in a challenging environment. The fund retains its style-neutral characteristics by actively blending a range of underlying funds that follow different investment styles.

CAM GLOBAL MULTI-STRATEGY EQUITY FUND R (ZAR HEDGED)

CAM

INFORMATION AND DISCLOSURES

ABOUT THE FUND AND CUSTODIAN

The CAM Global Multi-Strategy Equity Fund (the"fund") has been established by CAM Global Multi-Strategy Equity Limited the"company") a company registered in Guernsey, registration number 36801, and authorised by the Guernsey Financial Services Commission ("GFSC") as an open-ended collective investment scheme under the Protection of Investors (Bailiwick of Guernsey) Law, 2020, and the Authorised Collective Investment Schemes (Class B) Rules and Guidance, 2021. The fund has also been approved by the Financial Sector Conduct Authority in terms of section 65 of the Collective Investment Schemes Control Act, 2002. CAM Manco (RF) (Pty) Ltd Ltd is the South African representative for this fund. The custodian of the fund is Northern Trust (Guernsey) Limited (tel: +44 1481 745 000) and the administrator is Northern Trust International Fund Administration Services (Guernsey) Limited.

ABOUT THE MANAGER AND INVESTMENT ADVISOR

The company has appointed CAM Global Limited (the "manager"), registration number 36784, as the principal manager and investment manager of the fund. The manager's registered address is PO Box 255, Trafalgar Court, Les Banques, St Peter Port, Guernsey, C.I., GY1 3QL (tel: +44 1481 758 600). The manager is licensed by the GFSC as an investment manager. CAM Global Limited is a subsidiary of Citadel Holdings (RF) (Pty) Ltd. The company has also appointed Citadel Investment Services Proprietary Limited ("Citadel"), registration number 1996/006847/07, as the investment advisor of the fund. Citadel is licensed as a financial services provider in terms of the Financial Advisory and Intermediary Services Act, 2002. Citadel Asset Management (Pty) Ltd is the asset management division of Citadel.

RISK WARNING

The risk and return profile of a fund illustrates the amount of risk undertaken by an investor in the hope of achieving a particular return on an investment. The generally accepted principle is that potential return rises with an increase in risk. The risk and return profile on the face of this document is based on the historical performance of the fund. In addition to the risk warnings included elsewhere in this document, it is important to note that there are many other risks associated with investing in collective investments. These can include but are not limited to the following: general market risks (such as general movements in interest rates; external factors [war, natural disasters and such like]; changes to the law and regulatory frameworks; governmental policy changes; global, regional or national economic developments), risks related to a specific security (like the possibility of a company's credit rating being downgraded); and loss in the purchasing power of an investment as a result of an increase in the price of consumer goods (known as inflationary risks).

This fund invests in foreign securities. There are potential material risks associated with investing in foreign securities. These include but are not limited to: potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political and social instability, foreign exchange risks, tax risks, settlement risks and potential limitations on the availability of market information, all of which may have an impact on fund performance. In addition, risks associated with investing in emerging markets (which are generally less mature than those in developed markets) include but are not limited to currency risks, the possibility of expropriation, confiscatory taxation or nationalisation of assets and the establishment of foreign exchange controls which may include the suspension of the ability to transfer currency from a given country.

DERIVATIVES

If this fund has exposure to derivatives, this fact and the level of effective exposure will be specified within this document. Where this fund invests in other funds which use derivatives, those underlying derivative exposures will not be contained in this document. Derivatives derive their value from the value of an underlying asset. Investing in derivatives involves risk because depending on how the derivative is structured, the fund's losses or gains may be unlimited. To prevent this, the fund's derivative positions must be "covered" at all times. This means that the fund must always hold the underlying asset on which the derivative is based or have sufficient cash or "margin" to deliver if the fund's derivative positions move against it. If deriva tives are used in this fund, the cash/cash equivalent shown in the asset allocation section includes the portion allocated to "margin" for covering derivative positions and such portion of cash/cash equivalent is therefore not available for use by the manager. Other asset classes shown in the asset allocation section represent the market value of those assets and must be read together with the derivative holdings disclosure. The use of derivatives in collective investment schemes is governed by regulation. Derivatives can be used only for efficiency in portfolio management, for increasing a fund's yield, or to protect the fund against losses if the value of the shares or instruments invested in, or the market, falls. They may not be used for speculating or for enhancing the return of the fund by using gearing. The most common derivatives are options (puts and calls) and futures.

ONGOING CHARGES AND TOTAL EXPENSE RATIO (TER)

The Ongoing Charges figure is calculated in accordance with the Committee of European Securities Regulators guidelines. The TER is a measure of the fund's assets that have been expended as payment for services rendered in the management of the fund, expressed as a percentage of the average daily value of the fund, calculated over a period of a financial year by the manager.

GENERAL DISCLOSURES

With respect to South African investors, this document is the minimum disclosure document required by Board Notice 92 of 2014 published by the Financial Sector Conduct Authority under the Collective Investment Schemes Control Act 45 of 2002. Collective investment schemes are generally medium to long-term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance and may not be repeated. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commission is available on request from the manager. Neither the manager, nor the company, provides any guarantee either with respect to the capital or the return of the fund. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. Where any forecasts or commentary about the expected future performance of asset classes or the market in general are made in this document, please note that neither the manager,nor the company noguarantee that such forecasts or predictions made in commentary will occur. Where this fund invests into other funds ("underlying funds"), delays in reporting by such underlying funds may impact on the accuracy of the asset allocation and country/sector allocation disclosures.

PERFORMANCE DISCLOSURES

The performance calculated and shown is that of the portfolio. Individual investor performances may differ as a result of initial fees (if applicable), the actual investment date, the date of reinvestment and dividend withholding tax. Where periods of longer than one year are used in calculating past performance, certain figures may be annualised. Annualisation is the conversion of a rate of any length of time into a rate that is reflected on an annual basis. All since-inception performance returns are calculated from the launch date of the portfolio.

CALCULATION OF THE NAV AND PRICE

The value of participatory interests is calculated on a NAV basis. The NAV is the total value of all assets in the portfolio including any income accruals and less any deductible expenses (which may include audit fees, brokerage, service fees, securities transfer tax and bank charges). Forward pricing is used. The price of participatory interests is calculated by dividing the NAV by the number of participatory interests in issue. The fund is available via certain custody platforms, who levy their own fees. Investors in this fund may thus be liable for an initial fee and/or annual service fee levied by the third party administrator that is not reflected in the initial charge (where applicable) or NAV calculation. Prices are made available on the CAM Global website (www.camglobal.gg)in accordance with the dealing frequency of the fund.

LIMITATION OF LIABILITY

This document has been compiled for information purposes only and does not take into account the needs or circumstances of any person or constitute advice of any kind. It is not an offer to sell or an invitation to invest. The information and opinions in this document have been recorded by the manager and Citadel in good faith from sources believed to be reliable, but no representation or warranty, express or implied, is made as to their accuracy, completeness or correctness. Neither Citadel, the company, nor the manager accordingly accept any liability whatsoever for any direct, indirect or consequential loss arising from the use of this document or its contents.

COMPLAINTS PROCESS

Any complaint must be set out in writing and sent to the manager's physical address, No. 1 Upper Ground Floor, Royal Terrace, Royal Avenue, St Peter Port, Guernsey GY1 2HL, and include all relevant information and documents in the complainant's possession. The complaint must be addressed to the manager's compliance officer and posted or hand-delivered to the manager's physical address above or sent by email to info@camglobal.gg. The complaint will be investigated internally and the complainant will be advised of the outcome of the complaint.

CAM GLOBAL MULTI-STRATEGY EQUITY FUND R (ZAR HEDGED)

ADDITIONAL INFORMATION

The core scheme particulars of CAM Global Multi-Strategy Equity Limited are available free of charge from the manager. Should you so require, the application form and annual report will be provided to you free of charge. Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant fund, and the relevant subscription application forms, all of which must be read in their entirety together with the particulars of the fund as well as the "Schedule of Similarities and Differences" available on the website. Where this fund uses a custom benchmark, the custom benchmark is calculated by Citadel. Prior to investing, investors should seek independent legal and investment advice from suitably qualified and regulated advisors.

Where applicable, any benchmark hedged to a non-base currency is calculated by the manager. This calculation is based on WM/Reuters Closing Spot FX Benchmark (fixed daily at 4pm) and 1-month Forward Bid/Offer FX rates. These rates have become the accepted standard for the valuation of forward currency positions and calculation of currency-hedged funds. The FX Forward is assumed to roll every month based on the notional valuation as on the end-to-end forward date
